the american south is famous for its astonishingly rich biodiversity in this book georgann eubanks takes a wondrous trek from alabama to north carolina to search out native plants that are endangered and wavering on the edge of erasure even as she reveals the intricate beauty and biology of the south s plant life she also shows how local development and global climate change are threatening many species some of which have been graduated to the federal list of endangered species why should we care eubanks asks about north carolina s yadkin river goldenrod found only in one place on earth or the alabama canebrake pitcher plant a carnivorous marvel being decimated by criminal poaching and a booming black market these plants she argues are important not only to the natural environment but also to southern identity and she finds her inspiration in talking with the heroes the botanists advocates and conservationists young and old on a quest to save these green gifts of the south for future generations these passionate plant lovers caution all of us not to take for granted the sensitive ecosystems that contribute to the region s long standing appeal beauty and character

this book is the result of a challenge from one of my readers the patterns are a combination of engineering and bead artistry but the engineering is done for you so you get the fun of watching your flowers bloom one bead at a time so for victoria and all the other

flower loving bead artists around the world this one is for you the flowers in this book are three dimensional complete on all sides including stems bracts and some leaves they can also be made without the stems for a flatter application flowers include purple passion flower carnation blue aster gaillardia also called blanket flowers bright lights variety of cosmos nasturtium lilac seashell cosmos in either single color or bi color columbine and snap dragon all flowers are shown on the back cover or look inside for the table of contents the designs have detailed instructions and are fully illustrated with over 300 color photographs and diagrams all designs are original and have not been previously published in any other venue all flowers are approximately life size when made with size 11 0 round seed beads size 15 0 round seed beads are also used for shaping to smooth edges and for some of the more delicate parts where 11 0 are just too big a good light and a magnifier help a lot with the smaller details if needed or if you just can't work with tiny beads you could replace the 11 0 beads with 8 0 and the 15 0 with 11 0 you will just get bigger flowers glass beads can be heavy so wire is used as an armature in the stems and a few flower parts a word of caution this book is for the serious beader if you love those magazine articles about making a necklace this afternoon and wearing it out for dinner this book is not for you you cannot start a bridal bouquet on friday and have it ready for a sunday wedding that is not to say you must be an advanced beader if you have some patience and can follow detailed directions you can make these flowers basic peyote stitch instructions are not covered in this book you need to know even and odd count increasing and decreasing within rows and at the end of rows this book was a labor of love hope you like it
