the book the magical lantern is a collection of essays on marxist philosophy it is based on the philosophical reflection on marx s idea of phantasmagoria as the magical lantern that creates eerie images an idea that is central to marx s theory of modern capitalist societies it talks of the importance of marx s philosophy and its application in concrete politics especially in creating socialist humanist philosophy of human emancipation where global societies can be emancipated from the phantasmagorias that haunt them thus able to transcend global capitalism which is in terminal and permanent crisis it then critiques the rise of authoritarian regimes emerging all over the world and seeks to explain the rise of global totalitarianism but it claims that the answer to authoritarianism is not liberalism since liberalism is part of the late imperialism in permanent crisis as well as it involves what slavoj žižek calls the denkverbot the prohibition against thinking and thus involves the return of the eerie phantasmagoria that does not allow critical thinking however the critique of liberalism does not relapse into orthodox marxism since this book argues that in the genre of orthodox marxism the ghosts of stalin and mao with their own authoritarianism haunt philosophies of human emancipation while stalin is portrayed as a brutal counter revolutionary who destroyed marxism by evoking marxism itself mao is presented as the alchemist of the revolution and a peculiar form of stalinism in rebellion against stalinism itself the chapters in this book were originally published in critique journal of socialist theory
